

PEACE BY PIECE

INTERNATIONAL

Changing lives through socially responsible corporate gifting.

Peace by Piece International helps corporations demonstrate a commitment to social and environmental impact through values-based gifting.

We partner with over 40 artisan companies and businesses that benefit underserved communities – all who make beautiful, quality, hand-crafted gifts that corporations give to event attendees, clients, and employees.

“Corporations have the power to help mend some of the world’s biggest social and climate challenges through their purchasing choices.”

*Lauri Jones Pastrone, Founder & CEO
Peace by Piece International*

Each purchase empowers and restores dignity to makers in these communities impacted by war, homelessness, human trafficking, climate disasters or incarceration.

Differentiation

Quality, curated products. Each gift you buy is hand-selected and inspected for quality. We buy only from the most talented artisans and community-based businesses in the US and globally. Many of our gift lines are made from upcycled, recycled and organic materials.

Strategic consulting aligned with client values. With a global commitment to Environmental, Social and Corporate Governance (ESG), we make sure your corporate gifts support your company's mission and values.

True impact on people's lives that is meaningful and measurable. Our CEO spends time with our partners to personally verify their social impact. Our commitment to clients is to know that our communities are making the life-changing impact you want and expect.
